EDITORS NOTE

While the rest of the magazines in the world are busy shooting holiday and winter themes, we at VOLO in our own rebellious way... Decided to go the other way. We are all cold and damp this season, so why extend the gloom? Wouldn't it be better to cheer up the mood and heat up the atmosphere with an issue that melts the hardest of snowflakes in seconds!

Welcome to VOLO 43, the first VOLO EROS issues of its kind. Going forward the 'Eros' tag on the VOLO logo will represent a more erotic themes in issues it's marked with. Don't worry, we are not changing our direction and becoming more of the same as with all the other nude magazines in the world, this is still a VOLO issues and every page is filled with incredible photography and excellence in execution of the concept and the genre the photographer aimed for.

A note to our contributing photographers. We know that VOLO has become incredibly selective in the content that goes into our Print editions, and that is because the world is demanding a higher level of excellence from us all the time. But the world of VOLO has expanded, with over 400,000 followers on Instagram and over 1.7Million pageviews of our sites last month, there is no better outlet to showcase your nude photography. The submissions that are showcased in the VOLO VAULT recieve a much higher number of eyeballs than the ones in the pages of the magazine, and that is why we are also publishing magazine sets on to the VOLO VAULT.

VOLOVAULT is going to become the primary destination for quality nude photography in the world in just a few months, so go claim your spot.

*Enjoy the issue,
CIAO*

TOM HART

Tom Hart is a freelancer photographer, born in 1990 and based in a small town near Linz, Austria.

He is a self-taught photographer, starting about two years ago at the age of 24. Last year, he had the chance to travel to the beautiful island of Mallorca, together with one of his biggest inspirations, a good friend, Germany's well-known Martin Strauss. In this time he was able to push his work in the direction he always wanted to go.

Thomas loves to work mostly with natural light to create a natural look with a lot of contrast and which evokes a dark mood. Using only old manual lenses from the analog age, also is a big part for his way of working - focused yet open for what is happening while shooting. Also post production is a big part of his work.

For him, the most important thing is having fun on set, getting to know new people and having a good time by drinking a bottle of wine, rather than earn a lot of money and becoming famous.

Thomas works together with his girlfriend Anja Drown, an independent make-up artist and model. She is his biggest motivation. Besides photography, make-up and modeling, the most important thing for them is their dog, Emma.

SPONTANEOUS VISIT

featuring MASHA
shot by BERND HIRNSCHRODT

"The location was a small room at a hotel in the city of Vienna. The shoot was organized with a few days notice and I didn't know what to expect as I was not familiar with the hotel room.

The photo shoot was all about spontaneity."

BERND HIRNSCHRODT

“Dear VOLO,

I am Bernd, living and working as fulltime project manager and freelance photographer for a large Austrian newspaper in Vienna/Austria right now.

I came into photography early during my studies, mostly shooting press and documentary images for local newspapers and magazines. As a self-taught photographer, I started shooting nude images regularly in 2013 with my first experiences back in 2008 and 2010. In my images, locations are essential as they help support a woman’s beauty.”

FRANZ SAUER

"Dear VOLO readers,

I grew up in Styria, the green heart of Austria. I'm living and working in Vienna since 1982. My first experience in serious people photography and nude art was in 1985. After a long pause from 1990 to 2006, I found back to my real passion: photography with a focus on nude art, primary nudes in nature. My purpose is to make the models become one with nature in a very sensitive way.

In 2008, I won the "Gold Medal in the Nude Category" from the famous Trierenberger Super Circuit. In 2011, I won another Gold Medal in the category, "Austria At Its Best". The Trierenberger Super Circuit has established itself as an international graduator of perfect photography.

I've been interested in photography since the age of 6 when I inherited an old camera from my grandfather who was also a passionate photographer. It seems that I also inherited his passion for photography.

My primary passion is outdoor work, all year round, only shooting with available light. Therefore almost 80% of my work falls in this category. But for VOLO I wanted to show that I also love to work indoors, especially when I had access to interesting locations like in this case."

OLIVIA PRESTON

Rosalind McKinnon, better known all over the globe as "Olivia Preston", is the most talented and beautiful model I have ever had the privilege to work with. From the first contact that I had with her to the multiple opportunities to shoot, she always came prepared with an amazing attitude to kill the shoot at hand.

Olivia, who is a full time traveling model from Vancouver, British Columbia, has a port worthy of some of the best nude models in America. Her figure comes totally natural, breasts are a perfect full B and her body is completely free of all tattoos.

JOHN MIDDLEBROOK

My name is John Middlebrook and I have been passionate about photography since the early 80's when I learned how to process film in the dark room from my high school photography teacher, Ms. Keyser.

I let the passion fall off a little in college and then my few years of heading off into the corporate world but then took it up again when my kids started in sports in the late 90's.

Sports or any action shoots are my bread and butter. I started with my kids and then weasled my way onto the NFL fields in the area and now 15 years later I'm still shooting Pro sports. I make the majority of my income from sports and use that to augment the creative side of my studio work and to hire great models.

My first take at nude model photography was in late 2010 while I was living in Switzerland. I met a husband and wife that owned a company and they regularly did photo expositions in European countries. They convinced me to give it a shot in the beautiful scenery of Tuscany, Italy. After that first, gut-wrenching anxiety of a nude shoot, I felt comfortable in everything I had the opportunity to shoot. I explored the Tuscan landscape, the Mediterranean Sea, old factories and hot spas as I dipped my proverbial toe into this awesome business.

After moving back to the states my nude portfolio had begun to take shape and it was easy to find models that were honored to work with me. I have never submitted any nude photos to a publication, although I have been published in many magazines and online for my sports work.

PETR OKOPNYJ

I was born in 1983 in Ukraine. In the beginning photography has become a favorite hobby that later tightened so much that was not able to stop to photograph ... I studied independently analyzing the works of famous photographers and post-processing techniques.

From the first moments, when I took the camera in hand, I realized that I was taking pictures of people, their feelings and emotions. Later in the priority remains the beauty of the female body with its unique lines and curves. Nude style became my direction for creative development and growth.

When working with the models I try to notice the details and features of each girl and allocate them in pictures, because it is these details make the girls individual and unique. Always experimenting and looking for something new and interesting.

In my works I make the beautiful things perfectly excellent.
